2009 Lighting Incentive Program

Your energy partner

OPPD

Omaha Public Power District

aimgreen

OPPD now offers lighting incentives to our commercial and industrial customers for replacing/retrofitting their current system to new, energy-efficient ones.

- Lighting accounts for between 30% to 40% of most buildings' energy consumption.
- Lighting and color rendering impact employee performance and customer satisfaction.
- A retrofit to energy-efficient lighting will save you money and reduce your carbon footprint, while helping to improve your overall Energy Star score.
- With OPPD incentives, lighting retrofits/replacements have attractive, simple paybacks.
- Lighting retrofits/replacements may qualify you for a federal tax deduction of up to \$0.60 per square foot.

For a list of contractors who have registered with OPPD as Commercial and Industrial Lighting Trade Allies, go to www.oppd.com/businesscustomers, then click on "Lighting Trade Allies." These contractors will provide no-cost, no-obligation lighting audits and proposals to you. They all have attended OPPD Lighting Incentive informational meetings.

The Process

Have a lighting audit and retrofit/replacement proposal done by an OPPD Trade Ally.

Submit preapproval paperwork to OPPD:

1. Incentive Application Form
2. Lighting Equipment Application
3. kW and kWh Reduction Spreadsheet
4. EPACT 2005 tax implication form
(provided by your Lighting Trade Ally)

Receive your approval from OPPD via email.

Proceed with the retrofit/replacement.

Submit your Trade Ally itemized invoice to OPPD within 30 days of project completion.

Receive your incentive check!

(incentives listed on back)
